

BENEFITS

BENEFITS OF PARTICIPATING IN THE CESQG PROGRAM FOR SMALL BUSINESSES

- Low-cost way to safely and legally dispose of hazardous materials
- **You pay only the cost of disposal.** No added “pick-up” or transportation charges apply as your staff delivers the hazardous waste to the HHW Facility in your own vehicle.
- Additional protection under the “cradle to grave” laws, which make your business responsible for the waste it generates. These laws hold businesses liable long after they have paid someone to haul the waste away.

QUALIFICATIONS

DOES MY BUSINESS QUALIFY AS A CESQG?

In order to qualify as a CESQG, your business must:

- Be located in one of the cities or an unincorporated area somewhere within Fresno County; and
- ALL hazardous waste generated in a month totals **less** than 220 pounds; and
- Generate **less** than 2.2 pounds (approximately 1 quart of liquid with a weight comparable to water) of acutely hazardous waste per month

Safety Data Sheets are typically the best source of information regarding the products your business uses and are available through your product suppliers.

HOW TO SIGN UP FOR THE CESQG PROGRAM:

Call Toll Free: (877) 235-3005

Qualified CESQG will need to:

- Provide a list/amounts of the material he/she plans to bring
- Get a State-required EPA ID number from Cal EPA Department of Toxic Substance Control:
Online: www.hwts.dtsc.ca.gov
Questions: (800) 618-6942
- Make an appointment Toll Free at (877) 235-3005 (Free cost estimate)

TRANSPORT THE AGREED UPON HAZARDOUS WASTE SAFELY AND LEGALLY:

- Transport **ONLY** your own waste
- Transport **ONLY** in a vehicle owned and operated by the CESQG and driven by the CESQG or its employee
- All waste must be properly labeled and packaged in closed, sturdy, non-leaking containers
- All waste shall be packed in a manner that prevents containers from tipping, spilling or breaking during transport
- Different wastes shall not be mixed within a container before or during transport
- Transport no more than 2.2 pounds of extremely or acutely hazardous waste
- Limit on transport per trip and per month: 27 gallons or 220 pounds.
